Subject: NSB PAR SCHEDULE
Date: Monday, May 08, 2006 3:59:48 PM

As follow-up to our discussion during the Bi-Weekly call here are the proposed schedules for NSB PAR and start of CSM Task.

NSB PAR - May 18th

We wanted to have an opportunity to speak with Chuck about "eco" comments this week. We'd like to get on Chuck's schedule by Wednesday. I would recommend May 18th for submittal of the RTC document and the revised PAR. This schedule assumes input from the State this week and Chuck by Wednesday.

CSM/PROBLEM FORMULATION

We can begin this task following our discussion with Chuck and outstanding comments. We will submit a Task Plan to you on or before 5/23. Assuming we have authorization - Len?

Let me know if you have any other questions.

Thanks,

Don
